

### The time is NOW

799 Broadway is the newest building in the coolest NYC neighborhood. This trend-setting boutique building, with just 22,478 RSF of remaining office space, located in the heart of Greenwich Village, was designed with a healthy environment in mind. A touchless experience throughout the building coupled with smaller floor plates provides companies with more control over the space and design.

With the first occupants moving in this summer, the time is now to make 799 Broadway your company's home.

### HEALTH AND WELLNESS ■ 799 BROADWAY

15' ceilings and 12' of glass provides workers with more light and air which studies have proven adds to overall worker productivity

Exposure to a range of airborne pollutants, allergens, asthmatics, and volatile organic compounds may occur in the workplace. CO2 can build-up throughout the day, especially in high density work environments. Better air quality not only reduces absenteeism but in a recent study has shown an average of 101% higher cognitive test results from improved ventilation.

Harvard University & Suny - The Impacts of Green Buildings on Cognitive Function - COGFX Study @ 2016

Lighting can impact comfort, mood, health, safety, and aesthetics of office space. Poor visibility, glare, flicker, and visual discomfort can create headaches, eyestrain, and affect task performance. Studies show workers with greater access to natural light are up to 18% more productive.

World Green Building Council - Health, Wellbeing and Productivity in Offices September 2014

### AIR PURIFICATION SYSTEM

UV Light Sanitation and Bipolar Ionization

5-7 Fresh Air Changes Per Hour Per Floor

MERV-8 and MERV-13 Filtration

### HEALTH AND WELLNESS 799 BROADWAY

	吕 799 BROADWAY	EXISTING MIDTOWN SOUTH BUILDING
EMPLOYEE INDOOR AIR QUALITY	<ul> <li>Bi-Polar Ionization Technology will sanitize the supply side air prior to direct distribution to employees</li> <li>UV Light Irradiators will sanitize return air supply prior to returning to base building equipment</li> <li>Enhanced capacity allows for incremental outside air allowing more regular full building air changes with MERV 13 filters</li> <li>Real time tenant monitoring of indoor air quality</li> </ul>	– Bolt on systems provide some improvements but rarely provides a holistic solution for the employee in the space
TOUCHLESS EMPLOYEE AND GUEST EXPERIENCE	<ul> <li>Automatic sliding doors at the street</li> <li>Employee and guest mobile access for turnstiles, elevators and required base building doors</li> <li>Touchless access for restroom doors, faucets &amp; fixtures</li> </ul>	- Revolver doors / tactile elevator buttons / shared restrooms / grandfathered base building conditions
VERTICAL TRANSPORTATION	- Mobile access controlled, high speed destination dispatch elevators for guests and employees reduces wait time and improves social distancing protocol	<ul> <li>Midtown South buildings tend to have undersized, retrofitted elevators with multiple elevator banks</li> <li>Shared tactile buttons for guests and employees enhances the risk of germs transfer</li> </ul>

### HEALTH AND WELLNESS 799 BROADWAY

	吕 799 BROADWAY	EXISTING MIDTOWN SOUTH BUILDING
THOUGHTFUL OUTDOOR SPACES	<ul> <li>Private outdoor spaces within tenant's premises promoting health, wellness and productivity</li> <li>17,000 RSF of outdoor space integrated into nine separate spaces throughout the building</li> <li>Terraces designed as part of base building construction to maximize access and usability to foster a productive work environment</li> <li>Ground floor employee garden enabling employee and guest meetings outside of tenant's secure envelope</li> </ul>	<ul> <li>Shared roof terraces accessible by all building employees and guests</li> <li>Retro-fitted base building setbacks requiring shared elevators and stairwells for access</li> </ul>
DEDICATED PRIVATE ENTRANCES	<ul> <li>Dedicated entrance connected to street level allows direct access to the guest experience space and promotes a health conscious separation</li> <li>Direct access from dedicated entrance to client conferencing center to improve employee and guest experience while creating separation from secure employee spaces</li> </ul>	– Shared lobbies with communal access
EMPLOYEE WELLNESS	<ul> <li>LEED GOLD New Building Certification</li> <li>FitWel Certification</li> <li>Well Certification</li> <li>Frictionless bike room</li> <li>Holistic approach from sidewalk to boardroom and from base building to tenant construction</li> </ul>	- Existing Building LEED and Wellness certification standards have lower thresholds for environmental / employee health and wellness than the same New Building LEED and Wellness certificates

### CAST IRON BUILDING

CURRENTLY UNDER RENOVATION ON CORNER OF 11TH STREET AND BROADWAY

#### DEVELOPER

Columbia Property Trust creates storied properties for legendary companies in New York, San Francisco, Washington D.C., and Boston. Columbia uses its experience in leasing, development, transactions, property management, asset management and repositioning to grow value across its high-quality, eight million square foot portfolio of owned and managed assets. Columbia has been named a 2022 ENERGY STAR "Partner of the Year" by the E.P.A. and a "Green Lease Leader" by the U.S. Department of Energy, as well as one of Fortune's "Best Workplaces in New York 2021" among Small and Medium-sized employers. Developer Architect Construction

PERKINS+WILL

#### ARCHITECT

Perkins+Will is an interdisciplinary, research-based architecture and design firm established in 1935.

Founded on the belief that design has the power to transform lives and enhance communities, we collaborate with clients all over the world to create healthy, sustainable places in which to live, learn, work, play, and heal. More than 2,000 professionals across over 20 Perkins+Will offices include some of the brightest minds in architecture, interior design, branded environments, urban design, and landscape architecture. Clients consistently turn to us for our leadership and expertise in areas like sustainability, resilience, health and wellness, and mobility. Additionally, our Research Labs catalyze innovative design technologies and solutions that result in better, smarter, more competitive built environments. The recipient of hundreds of design awards each year, and a progressive leader in corporate social responsibility, Perkins+Will is consistently ranked among the world's top design firms. Our family of partner companies includes retail strategy and design consultancy Portland; sustainable transportation planning consultancy Nelson\Nygaard; healthcare technology planning firm Genesis Planning; and luxury hospitality design firm Pierre-Yves Rochon (PYR).

#### CONSTRUCTION

Consigli Construction Co. Inc. is a fourth generation, 100% employee owned construction manager and general contractor with offices in Boston and Milford, Mass., Washington, D.C., Portland, Maine, Hartford, Conn., and New York State. Their extensive portfolio features a diverse range of projects of various scale, serving a wide range of clients in the life sciences, historical, academics, residential and cultural industries throughout the Northeast and Mid-Atlantic regions. Consigli is recognized by Engineering News-Record as one of the 100-largest in the country. It has received numerous awards and recognition for its work and employment practices company wide.
